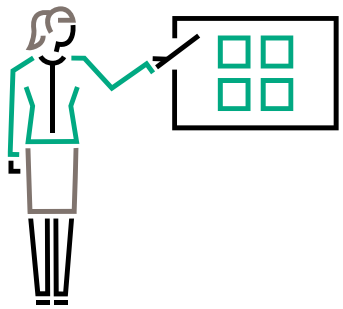
SYNERGY ASSOCIATES

Buy certified HPE genuine replacement parts

Did you know?



$1.8 trillion
worldwide counterfeiting costs per year

15% more
counterfeited goods traded every year

3%
of seizures are for computers and accessories

Dangers of using noncertified, nongenuine HPE parts

- Fire or electric shock
- Damage to customer's product
- Poor quality
- Criminal consequences
- Data loss
- Invalidate product warranty
- Poor performance
- Incompatible firmware

Don't compromise

Use certified genuine HPE replacement parts

Industry-leading quality

All HPE parts go through disciplined quality and test processes to ensure reliability

Optimized performance

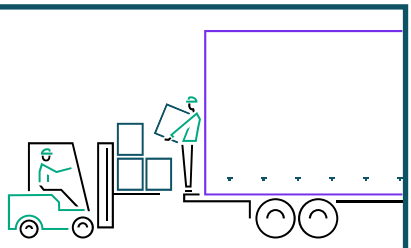
All HPE parts are tested and shipped with the latest firmware to ensure optimal performance

Quick and easy installation

All HPE parts are shipped with the correct kitting, including appropriate carriers and cables

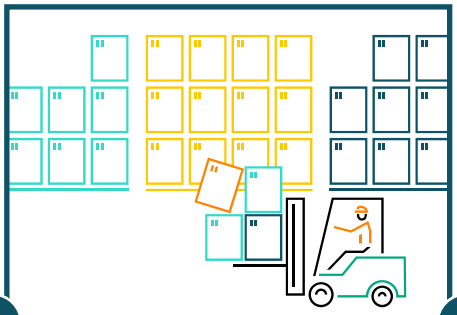
How to identify certified HPE genuine replacement parts

For example, with hard disk drives:



Check external packaging

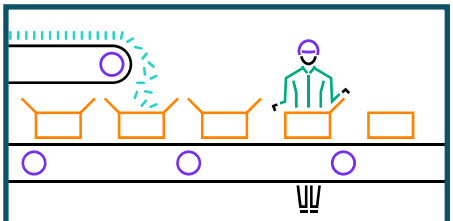
Is the drive packed in an individual cardboard carton with a tamper evident seal?



Check internal packaging

Is the drive cradled in a styrofoam or thermal form bun?

Is the drive in an anti-static bag with a warning label?



Check the drive

Does the drive have a security label?

Always be sure

By purchasing your parts from an authorized partner network, you can be confident you're always buying certified genuine HPE replacement parts. The parts purchased through an authorized channel, that are installed in HPE product, will not affect the product warranty.

Report the counterfeit

If you suspect counterfeit product, contact: hardware.counterfeitvalidation@hpe.com

→ HPE parts store
