Warranty Renewal Services

Dell + HPE Coverage Quoted Fast

Synergy Associates manages warranty renewals for both HPE and Dell systems—quoted by our internal team and aligned with current OEM programs. Coverage options are based on system eligibility, and all quotes include validated terms and durations.

In-House Warranty Renewals with Fast Turnaround

Everything's handled start to finish by our in-house renewal team. We handle renewals directly with HPE and Dell, turning quotes quickly and aligning service options with your customer's environment.

- Fast processing backed by inventory insight
- Accurate SKUs and durations, ready to act on
- Clean documentation that simplifies follow-through
- Consistent experience from a team who understands how your systems are built

How the Process Works

HPE Renewals:

- Pricing is static, based on support SKU
- Serial number required
- End user and reseller information required for registration
- Registration must be submitted within 45 days of expiration

Dell Renewals:

- Pricing provided by Dell
- Service tag required
- Defined timeline
- Expired quotes require updated pricing

We'll confirm current eligibility, duration options, and get you a renewal quote that aligns with available support SKUs and your customer's needs.

- All quotes will reflect the OEM's current terms and expiration policies
- Dell quote expiration dates vary and will be stated clearly in each returned quote
